

# COILMAC - ECI+

## MANUAL PUNCH AND ELECTRIC COIL INSERTER

The NEW CoilMac-ECI Plus is a new version of the classic CoilMac-ECI Manual Coil Binding Machine. This machine includes the solid construction, electric coil inserter and other great features that have made the CoilMac-ECI binding machine famous. The NEW CoilMac-ECI Plus offers .248 pitch OVAL Punching holes to help make inserting coils easier than ever. With more innovative and stronger construction than any other machine of its class, the CoilMac-ECI+ is the ideal partner for all your coil binding needs.

### FEATURES:

- **Oval Holes**
- **FULLY Disengageable Pins:** For a completely clean and professional punching of any paper size, all 54 pins can be independently pulled and disengaged.
- **4:1 pitch (0.248"):** This revolutionary 0.248" coil pitch is specifically designed to give you 44 evenly-centered holes in an 11" sheet, which provides the most ideal hole to edge-of-sheet margins and easier coil insertion. Hole pattern is 100% compatible with STANDARD 4:1 pitch coils.
- **Punching Length: 13"**
- **Punching Margin Control:** Provides the correct punch-margin-depth for each coil size and maximizes the document's tear resistance.
- **Open Punching Throat and Continuous Punching Guide:** For easy alignment and punching of longer documents.
- **Side Margin Control:** Provides an evenly centered punch for all document sizes.
- **Electric Roller Inserter (Foot Pedal Operated)** - Allows the free use of both hands and grants the operator complete rotating control of the roller. Drastically reduces time and costs by making the inserting fast and easy.
- **Super Strength Punch Mechanism:** Cast-hardened and heat-treated punch mechanism provides superior strength and durability.
- **Includes:** Coil selector and coil crimpers
- **1 Year Warranty**

### SPECIFICATIONS:

Pitch	Punching Length	Inserting	Hole Punch	Disengaging Die Pins	Single Punching Capacity	Binding Capacity	Weight
