

Revo Flex

4 SIDE TRIM FULLY AUTOMATIC LAMINATOR

Revo Flex
with stand (included)

Four side trim function with or without margin.

Sheet Feed Skew Adjustment

Revo Flex

Join the revolution with the all new **Revo Flex** next generation fully automatic laminator. The **Revo Flex** 4 side trimming system allows for true flush cuts or encapsulating a sheet with lamination. The position of the cuts are fully adjustable to create perfect flush cuts or custom size encapsulation borders. No need for additional processing to trim all 4 sides of a sheet. Feeding, laminating, cutting and trimming are now fully automated with the press of the start button.

Customer Benefits

- 4 side internal trimming system for flush cut or encapsulation
- New no waste run mode eliminates sheet trim
- Compact design with stand included
- Automatic paper feed, laminate and cutting in one process with one button push start
