

the phoenix™

The 44" Phoenix™ is a professional grade mounting laminator. Robustly designed, **the Phoenix™** uses a metal frame construction with high quality 4" diameter silicone rollers for professional results. Two speeds and temperature settings allow **the Phoenix™** to work with all medias and laminates.

Now, for the first time, you have the capability to use **roll film** with the factory installed **roll film kit**. This added feature allows you to easily achieve the look you want while saving time and money!

FEATURES:

- Clear protective safety shield
- Single control roller height adjustment
- Print feed guides
- Large 4" diameter silicone rollers
- Roll lamination kit
- Rugged design
- Two temperature settings
- Two speed settings
- Minimal set-up time
- Mounts & laminates most types of materials up to 1/4" thick
- Optional integrated cart or stand
- Optional cutter
